In our pursuit to assist everyone as quickly as possible, we need to align our communication with our customers first and foremost.

Please follow the step by step process as follows to unlock your device:

Step 1: Insert your new Blast SIM card.
Step 2: Power on, and connect to your device.
Step 3: Go to [http://attwifimanager](http://attwifimanager) & set up your device.
Step 4: Go to settings, and select security tab.
Step 5: Go to SIM Security

Step 6: Click "Enter Unlock Code"

Step 7: Enter unlock code provided, you should see a green box that says Unlock Code Accepted.

Step 8: If you see a red box that says Unlock Code Invalid, double-check that you entered the code correctly.
Step 9: Connect to your device and make sure data is working, if so then your device is unlocked and ready for use.
